

I am an advocate for bringing real-world experiences to demonstrate the importance of academic sincerity for students. In the fast-changing world of school and work, I bring in the empathy and eagerness to learn more by supporting professors with support, grading, office hours, conducting classes, preparing lecture materials, and coordinating with several students across multiple courses & programs.

TA, Marker and Support Experience

COMM4523 / MGMT4333, Project Management

Dr. Paola Gonzalez, Dalhousie University

Jan 2026 - Present

- Conducting classes, organizing lecture materials, and often lecturing for brief coverage of topics from the syllabus
- Co-ordinating and hosting guest speakers

Business Intelligence	Monte Carlo / Math Derived Simulations
Cross Functional Vendor/Client Management	Risk Management

Professional Experience

Consultant, The Barrington Consulting Group *Jan 2024 – Present*

- Define scope of products within a project and communicate the development lifecycle based on agile principles.
- Facilitate translation of requirements to quantitative and qualitative delivery items by undertaking inputs beyond the traditional scope of users like service designers, developers, business support executives.
- Develop scrum development frameworks ensuring visibility and transparency between multiple stakeholder entities.
- Lead negotiations on Definition of Done and acceptance criteria, aligning cross-functional teams and ensuring stakeholders understood constraints and rationale to avoid unmet expectations
- Deliver quick turnaround support for ad-hoc requests, User Acceptance Test results, regression problems, and change management items coming from any technical debt or cyber security scans.
- Documentation of testing roadmaps focused on unit testing, user acceptance, regression testing, post-deployment requirement changes, and functional testing.

Student Consultant, Pier Labs, Hope Blooms Project *Sept 2022 - Jan 2023*

- Documented resource requirements for hosting currency exchange at the social enterprise focused on solving food insecurity problems within the local community.
- Ran feasibility tests for alternative scenarios to build solutions for edge case problems.
- Identified major data-flow risks like arbitrage of benefits that could potentially impact the beneficiary community.
- Created strategy-related research and analysis documents like proposals, internal & external research, and conducted several partner meetings with client donors.
- Created presentations for prospective donors and other consultants who worked with the client.

Business Analyst Co-Op, Fusion (Jonas Software) *Jan 2022 – Aug 2022*

- Audited the flagship products at Fusion to understand the most used features of the app to direct product improvement for the 2.0 version.
- Tabulated dashboards, indexed reports by consulting with product managers, and improvised forecasts.
- Modelled a market penetration plan across 197 clients to increase the penetration rate of mobile apps by 20% in two quarters.

Deputy Manager of Sales, Business Analyst, Microsoft & Ingram Micro *Jun 2019 – May 2021*

- Led end-to-end implementation of Microsoft Dynamics 365 CRM for 2,600+ resulting in sustainable usage, increased utility, and successful data migration from legacy ERP systems.
- Drove process improvement across 8+ cross-functional initiatives, creating business requirements, redesigning SOPs, improving transparency with Agile practices, and developing KPI frameworks that improved operational efficiency and supported audit readiness.

- Delivered comprehensive change management, user training, and post-implementation support, resolving day-to-day issues, facilitating adoption workshops, and acting as the primary liaison across seven business verticals, product managers, and technical teams.
- Generated measurable business impact, onboarding 50+ resellers, enabling \$100K revenue within one month, and driving a 40% YoY increase in Microsoft licensing sales (from \$2M to \$3M), while growing Azure market share from 33% to 46% through strategic stakeholder management and negotiation.

Extra Curricular Involvement in Student Development and Leadership

Lead Mentor, Re-Defined Canada

September 2025 – Present

- As a part of the non-profit organization that serves over 50,000 students and early professionals across Canada, I lead the movement for engagement, mentorship and learning for Atlantic Provinces.
- I regularly workshop with students for career guidance, job-market navigation, and work-readiness in the Canadian ecosystem.
